Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the team and the project, and explain the problem: incorrect data entry on the Incident form.	1	Varsha Devi K H
2	Solution Overview	Explain the architecture: UI Policy, UI Policy Action and Client Scripts on the Incident table of a ServiceNow instance.	2	Nithishkumar N K
3	UI Policy & Urgency Demo	Set Impact to High to show the message and the read-only Urgency with Priority 1 - Critical, then change to Medium to show it reverse.	2	Nithishkumar N K
4	onChange & onSubmit Demo	Show the form reacting to a field change and the save being blocked when data is invalid.	2	Varsha Devi K H
5	onCellEdit Demo (List View)	Edit the State cell in the Incident list and show the alert that blocks the change.	2	Yogasairam P
6	Testing Summary & Future Plan	Present the test results and the future plan (other tables, mobile UI, server-side checks).	1	Varshida Kannivadi Balaji

Total planned demo time: 10 minutes, plus Q&A.

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Keep it short: who we are, what the Incident form problem is, and why the project matters.
2	Solution Overview	Show the architecture picture and name the five parts: UI Policy, UI Policy Action, onChange, onSubmit, onCellEdit.
3	Live Feature Demonstration	Use the ServiceNow instance with the demo login; follow the order Impact High, Impact Medium, save validation, list edit.
4	Q&A Session	All four members answer questions; each answers about the part they built.
