

Project Initialization and Planning Phase

Date	30 September 2026
Team ID	SWTID-2026-8305
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am Applicant seeking a loan	I'm trying to Secure a loan for property	But Married with no co-applicant income	Because Self-employed with a good credit history	Which makes me feel Optimistic about loan approval
----------------------------------	---	--	---	---

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A support agent logging incidents in ServiceNow.	Enter complete and correct incident details quickly.	Important fields are left blank and unrelated fields clutter the form.	The Incident form has no client-side rules to guide or validate input.	Frustrated by rework and delays.
PS-2	A ServiceNow administrator.	Enforce data quality on the Incident form.	Users can submit incidents without key details.	No UI Policy or Client Script is configured for the form.	Concerned about poor ticket quality.
